TO BEGIN 1951 CHECK ON MEASURING INSTRUMENTS;
ENGINEER DEVELOPS INTERNATIONAL CLOCK

DIRECTORS RESPONSIBLE FOR CONDITION OF INSTRUMENTS -- Frunze, Sovetskaya Kirgiziya, 14 Jan 51

On the basis of a decree by the Council of People's Commissars USSR No 1833, of 16 November 1942, it is announced for the information of directors of all organizations, enterprises, and institutions that in 1951 state checking of gauges and measuring instruments will be done by the administration of the authorized Committee on Gauges and Measuring Instruments attached to the Council of Ministers Kirgiz SSR.

Directors of organizations should submit within specified time limits all instruments for thermotechnical (manometers, vacuum gauges, thermometers etc.); electrical; linear and angular (for any purpose); and mechanical (scales, weights, volume gauges, etc.) measurements in a clean state and in working order.

Damaged or inaccurate measuring instruments must be taken to the Krasnyy Metallist Plant in Frunze, Shopokova, 65, or to its branches in Osh, Dzhahalal-Abad, Przheval'sk, Tokmak, and the village of Stalinsk, to be put into proper condition.

If instruments are not presented at the appointed times, or if they are in unsuitable condition for state checking, the guilty persons will be held responsible.

A list of rayons in the different oblasts is appended with a statement of the time periods during which each is to present instruments for checking, -- Advertisement

Baku, Bakinskiy Rabochiy, 13 Jan 51

The administration of the authorized Committee on Gauges and Measuring Instruments attached to the Council of Ministers Azerbaydzhan SSR announces to directors of enterprises, institutions, and organizations of all ministries and departments that on the basis of the decree of the Central Executive Committee

and the Council of People's Commissars USSR of 9 September 1934 and the Council of People's Commissars of 16 November 1942, No 1833, measuring instruments -- scales, weights, meters, liters; electrical, pressure, and vacuum; instruments for measuring temperature, registering consumption, density, and concentration; and theodolites [for measuring angles], for which the checking period has expired, must be presented for compulsory state checking and stamping, in working order, beginning 1 January 1951 at Ulitsa Dimitrova, 3, Baku.

[Regulations governing the presentation of instruments for checking are essentially the same as in the preceding item.] -- Advertisement

LITHUANIAN MACHINE BUILDING EXPANDS -- Vil'nyus, Sovetskaya Litva, 9 Dec 50

In the postwar period in Lithuania, new branches of machine building have appeared--the production of metal-cutting machine tools, painting apparatus, electric motors, electric meters, and measuring instruments.

LITHUANIAN PLANTS PRODUCE NEW ITEMS -- Vil'nyus, Sovetskaya Litva, 31 Dec 50

Lithuanian enterprises are producing new items. The Vil'nyus Electric Meter Plant is working on electric meters, and the Nauya Vil'nya Painting Apparatus Plant is putting out compressed air painting equipment.

CLOCK DEMONSTRATED -- Moscow, Vechernyaya Moskva, 9 Dec 50

A. K. Zadorenko, a mechanical engineer, has come to Moscow from Rostov-on-Don, bringing with him an international clock which he has designed. The clock indicates the time at any point in the world simultaneously--true solar, mean solar (local), mean zonal (international), statute, and stellar (astronomical). The instrument, very simple in design, is intended as a training aid in secondary schools, institutions of higher education, and special colleges.

The clock was demonstrated in the club of the Ministry of Education RSFSR.

ROLLS STEEL FOR DOMESTIC WATCH SPRINGS -- Leningradskaya Pravda, 30 Dec 50

The hot rolling shop of the Leningrad Plant imeni Molotov, as well as other shops in the plant, is producing semifabricated goods from which are made durable steel wire for cables, fine steel tape, and all types of reinforcing materials. The plant also rolls steel for the production of high-quality springs for the domestic Salyut, Molniya, Zvezda, and Pobeda watches.

TAKES 1951 ORDERS FOR ELECTRIC CLOCKS -- Yerevan, Kommunist, 27 Dec 50

The Baku Interoblast Repair, Planning, and Assembly Office of the Electric Clock Industry of the Ministry of Machine and Instrument Building USSR is now taking orders for 1951, for the planning and assembly of electric clocks for enterprises, institutions, MTS, sovkhoses, kolkhozes, and other organizations in the Armenian SSR.

On all orders received before 5 January 1951, the office guarantees electric clock equipment and delivery.

Send orders to Yerevan, Post Office Box No 2. -- Advertisement
